## SUBJECT INDEX

## HEARING

### NATURE OF HEARING AND ITS DISORDERS

#### Normal Auditory Systems

Developmental patterns of duration discrimination. Elfenbein, J., Small, A.M., & Davis, J.M. Aug. 1993, 842–849
Effects of word predictability, child development, and aging on time-gated speech recognition performance. Craig, C.H., Kim, B.W., Pecyna Rhyner, P.M., & Bowen Chirillo, T.K. Aug. 1993, 832–841
Fine-grained auditory discrimination: Factor structures. Elliott, L.L., & Hammer, M.A. April 1993, 396–409
Frequency-importance and transfer functions for the Auditec of St. Louis recordings of the NU-6 word test. Studebaker, G.A., Sherbecoe, R.L., & Gilmore, C. Aug. 1993, 799–807
Influence of frequency selectivity on comodulation masking release in normal-hearing listeners. Hall, J.W., Grose, J.H., & Moore, B.C.J. April 1993, 410–423
The influence of noise on the measured amplitudes of distortion-product otoacoustic emissions. Whitehead, M.L., Lonsbury-Martin, B.L., & Martin, G.K. October 1993, 1097–1102
Intelligibility of selected passages from the Speech Intelligibility Rating (SIR) Test. Beck, W.G., & Speaks, C. October 1993, 1075–1082
Multiple frequency tympanometry: Effects of ear canal volume compensation on static acoustic admittance and estimates of middle ear resonance. Shanks, J.E., Wilson, R.H., & Cambron, N.K. Feb. 1993, 178–185
Temporal analysis in children. Grose, J.H., Hall, J.W., & Gibbs, C. April 1993, 351–356
Tracking of "moving" fused auditory images by children. Cranford, J.L., Morgan, M., Scudder, R., & Moore, C. April 1993, 424–430

#### Auditory and Other Otic Pathologies

The effect of otitis media with effusion on the masking-level difference and the auditory brainstem response. Hall, J.W., & Grose, J.H. Feb. 1993, 210–217
History of middle ear involvement and speech/language development in late talkers. Paul, R., Lynn, T.F., & Lohr-Flanders, M. October 1993, 1055–1062
Middle ear resonance and acoustic immittance measures in children. Hanks, W.D., & Rose, K.J. Feb. 1993, 218–222

#### Hearing Loss and Deafness

Auditory Stroop Effects in hearing-impaired children. Jerger, S., Stout, G., Kent, M., Albritton, E., Loiselle, L., Blondeau, R., & Jorgensen, S. October 1993, 1083–1096
Communication behaviors of infants with hearing loss and their hearing mothers. Spencer, P.E. April 1993, 311–321
The effect of otitis media with effusion on the masking-level difference and the auditory brainstem response. Hall, J.W., & Grose, J.H. Feb. 1993, 210–217
Effects of age and hearing loss on serial recall of natural and synthetic speech. Humes, L.E., Nelson, K.J., Pisoni, D.B., & Lively, S.E. June 1993, 634–639
The effects of early bilateral otitis media with effusion on language ability: A prospective cohort study. Grievink, E.H., Peters, S.A.F., van Bon, W.H.J., & Schilder, A.G.M. October 1993, 1004–1012
First-language acquisition after childhood differs from second-language acquisition: The case of American Sign Language. Mayberry, R.I. December 1993, 1258–1270
Hearing loss, speech, and hearing aids. Van Tasell, D.J. April 1993, 228–244
Importance of patient and processor variables in determining outcomes with cochlear implants. Wilson, B.S., Lawson, D.T., Finley, C.C., & Wolford, R.D. April 1993, 373–379
Influence of frequency selectivity on comodulation masking release in normal-hearing listeners. Hall, J.W., Grose, J.H., & Moore, B.C.J. April 1993, 410–423
Influences of age and hearing loss on the precedence effect in sound localization. Cranford, J.L., Andres, M.A., Piatz, K.K., & Reissig, K.L. April 1993, 437–441
Long-term and short-term characteristics of speech: Implications for hearing aid selection in young children. Stelmachowicz, P.G., Mace, A.L., Kopun, J.G., & Carney, E. June 1993, 609–620
Monaural envelope correlation perception in listeners with normal hearing and cochlear impairment. Hall, J.W., & Grose, J.H. December 1993, 1306–1314
Speech intelligibility of children with cochlear implants, tactile aids, or hearing aids. Osberger, M.J., Maso, M., & Sam, L.K. Feb. 1993, 186–203
Temporal factors and speech recognition performance in young and elderly listeners. Gordon-Salant, S., & Fitzgibbons, P.J. December 1993, 1276–1285
Temporary threshold shift caused by hearing aid use. Macrae, J.H. April 1993, 365–372
Vowel and diphthong production by young users of cochlear implants and the relationship between the phonetic level evaluation and spontaneous speech. Tye-Murray, N., & Kirk, K.I. June 1993, 488–502

#### Effects of Noise and Issues in Hearing Conservation

Segmental intelligibility and speech interference thresholds of high-quality synthetic speech in presence of noise. Koul, R.K., & Allen, G.D. Aug. 1993, 790–798
Temporary threshold shift caused by hearing aid use. Macrae, J.H. April 1993, 365–372

### ASSESSMENT OF HEARING

#### Psychoacoustics

Auditory detection of the human brainstem auditory evoked response. Kidd, G., Jr., Burkard, R.F., & Mason, C.R. April 1993, 442–447
Developmental patterns of duration discrimination. Elfenbein, J., Small, A.M., & Davis, J.M. Aug. 1993, 842–849
The effect of otitis media with effusion on the masking-level difference and the auditory brainstem response. Hall, J.W., & Grose, J.H. Feb. 1993, 210–217
Fine-grained auditory discrimination: Factor structures. Elliott, L.L., & Hammer, M.A. April 1993, 396–409
Influence of frequency selectivity on comodulation masking release in normal-hearing listeners. Hall, J.W., Grose, J.H., & Moore, B.C.J. April 1993, 410–423
Influences of age and hearing loss on the precedence effect in sound localization. Cranford, J.L., Andres, M.A., Piatz, K.K., & Reissig, K.L. April 1993, 437–441
Monaural envelope correlation perception in listeners with normal hearing and cochlear impairment. Hall, J.W., & Grose, J.H. December 1993, 1306–1314
Synthesizing tinnitus from sine waves. Penner, M.J. December 1993, 1300–1305
Temporal analysis in children. Grose, J.H., Hall, J.W., & Gibbs, C. April 1993, 351–356
Temporal factors and speech recognition performance in young and elderly listeners. Gordon-Salant, S., & Fitzgibbons, P.J. December 1993, 1276–1285
Tracking of "moving" fused auditory images by children. Cranford, J.L., Morgan, M., Scudder, R., & Moore, C. April 1993, 424–430

#### Acoustical Instruments, Measurements, and Standards

Real ear to 6-cm$^3$ coupler differences in young children. Lewis, D.E., & Stelmachowicz, P.G. Feb. 1993, 204–209

#### Diagnostic Audiology—General

Intelligibility of selected passages from the Speech Intelligibility Rating (SIR) Test. Beck, W.G., & Speaks, C. October 1993, 1075–1082

#### Specific Diagnostic Techniques and Approaches

Effects of word predictability, child development, and aging on time-gated speech recognition performance. Craig, C.H., Kim, B.W., Pecyna Rhyner, P.M., & Bowen Chirillo, T.K. Aug. 1993, 832–841
Intelligibility of selected passages from the Speech Intelligibility Rating (SIR) Test. Beck, W.G., & Speaks, C. October 1993, 1075–1082
Middle ear resonance and acoustic immittance measures in children. Hanks, W.D., & Rose, K.J. Feb. 1993, 218–222
Synthesizing tinnitus from sine waves. Penner, M.J. December 1993, 1300–1305

#### Acoustic Immittance

Middle ear resonance and acoustic immittance measures in children. Hanks, W.D., & Rose, K.J. Feb. 1993, 218–222
Multiple frequency tympanometry: Effects of ear canal volume compensation on static acoustic admittance and estimates of middle ear resonance. Shanks, J.E., Wilson, R.H., & Cambron, N.K. Feb. 1993, 178–185

**Behavioral**
Effects of word predictability, child development, and aging on time-gated speech recognition performance. Craig, C.H., Kim, B.W., Pecyna Rhyner, P.M., & Bowen Chirillo, T.K. Aug. 1993, 832–841
Influences of age and hearing loss on the precedence effect in sound localization. Cranford, J.L., Andres, M.A., Piatz, K.K., & Reissig, K.L. April 1993, 437–441
Tracking of "moving" fused auditory images by children. Cranford, J.L., Morgan, M., Scudder, R., & Moore, C. April 1993, 424–430

**Electrophysiologic**
Auditory detection of the human brainstem auditory evoked response. Kidd, G., Jr., Burkard, R.F., & Mason, C.R. April 1993, 442–447

**Pediatric**
Effects of word predictability, child development, and aging on time-gated speech recognition performance. Craig, C.H., Kim, B.W., Pecyna Rhyner, P.M., & Bowen Chirillo, T.K. Aug. 1993, 832–841
Tracking of "moving" fused auditory images by children. Cranford, J.L., Morgan, M., Scudder, R., & Moore, C. April 1993, 424–430

**Speech**
Auditory Stroop Effects in hearing-impaired children. Jerger, S., Stout, G., Kent, M., Albritton, E., Loiselle, L., Blondeau, R., & Jorgensen, S. October 1993, 1083–1096
Effects of word predictability, child development, and aging on time-gated speech recognition performance. Craig, C.H., Kim, B.W., Pecyna Rhyner, P.M., & Bowen Chirillo, T.K. Aug. 1993, 832–841
Importance of patient and processor variables in determining outcomes with cochlear implants. Wilson, B.S., Lawson, D.T., Finley, C.C., & Wolford, R.D. April 1993, 373–379
Intelligibility of selected passages from the Speech Intelligibility Rating (SIR) Test. Beck, W.G., & Speaks, C. October 1993, 1075–1082
Temporal factors and speech recognition performance in young and elderly listeners. Gordon-Salant, S., & Fitzgibbons, P.J. December 1993, 1276–1285

## INTERVENTION

**Habilitation, Rehabilitation, and Education**
Benefit from visual cues in auditory-visual speech recognition by middle-aged and elderly persons. Walden, B.E., Busacco, D.A., & Montgomery, A.A. April 1993, 431–436
The efficacy of using the IBM SpeechViewer Vowel Accuracy Module to treat young children with hearing impairment. Pratt, S.R., Heintzelman, A.T., & Ensrud Deming, S. October 1993, 1063–1074
First-language acquisition after childhood differs from second-language acquisition: The case of American Sign Language. Mayberry, R.I. December 1993, 1258–1270
Vowel and diphthong production by young users of cochlear implants and the relationship between the phonetic level evaluation and spontaneous speech. Tye-Murray, N., & Kirk, K.I. June 1993, 488–502

**Hearing Aids and Other Prostheses**
Hearing aid evaluation: Predicting speech gain from insertion gain. Dillon, H. June 1993, 621–633
Hearing loss, speech, and hearing aids. Van Tasell, D.J. April 1993, 228–244
Importance of patient and processor variables in determining outcomes with cochlear implants. Wilson, B.S., Lawson, D.T., Finley, C.C., & Wolford, R.D. April 1993, 373–379
Long-term and short-term characteristics of speech: Implications for hearing aid selection in young children. Stelmachowicz, P.G., Mace, A.L., Kopun, J.G., & Carney, E. June 1993, 609–620
Longitudinal study of hearing aid effectiveness. I: Objective measures. Bentler, R., Niebuhr, D., Getta, J., & Anderson, C. Aug. 1993, 808–819
Longitudinal study of hearing aid effectiveness. II: Subjective measures. Bentler, R., Niebuhr, D., Getta, J., & Anderson, C. Aug. 1993, 820–831
Loudness matching of signals spectrally shaped by a simulated hearing aid. Punch, J., & Rakerd, B. April 1993, 357–364
Relative satisfaction for frequency responses selected with a Simplex procedure in different listening conditions. Kuk, F.K., & Pape, N.M.C. Feb. 1993, 168–177
Speech intelligibility of children with cochlear implants, tactile aids, or hearing aids. Osberger, M.J., Maso, M., & Sam, L.K. Feb. 1993, 186–203
Temporary threshold shift caused by hearing aid use. Macrae, J.H. April 1993, 365–372

**Aging**
Effects of word predictability, child development, and aging on time-gated speech recognition performance. Craig, C.H., Kim, B.W., Pecyna Rhyner, P.M., & Bowen Chirillo, T.K. Aug. 1993, 832–841
Influences of age and hearing loss on the precedence effect in sound localization. Cranford, J.L., Andres, M.A., Piatz, K.K., & Reissig, K.L. April 1993, 437–441
Temporal factors and speech recognition performance in young and elderly listeners. Gordon-Salant, S., & Fitzgibbons, P.J. December 1993, 1276–1285

**American Sign Language**
First-language acquisition after childhood differs from second-language acquisition: The case of American Sign Language. Mayberry, R.I. December 1993, 1258–1270

**Cochlear Implants**
Vowel and diphthong production by young users of cochlear implants and the relationship between the phonetic level evaluation and spontaneous speech. Tye-Murray, N., & Kirk, K.I. June 1993, 488–502

**Development of Hearing**
Temporal analysis in children. Grose, J.H., Hall, J.W., & Gibbs, C. April 1993, 351–356

**Tinnitus**
Synthesizing tinnitus from sine waves. Penner, M.J. December 1993, 1300–1305

**Ventilation Tubes**
The effects of early bilateral otitis media with effusion on language ability: A prospective cohort study. Grievink, E.H., Peters, S.A.F., van Bon, W.H.J., & Schilder, A.G.M. October 1993, 1004–1012

## LANGUAGE

### NATURE OF NORMAL LANGUAGE

**Language Development**
Access behaviors of children with specific language impairment. Craig, H.K., & Washington, J.A. April 1993, 322–337
Auditory lexical decisions in children and adults: An examination of response factors. Edwards, J., & Lahey, M. October 1993, 996–1003
Communication behaviors of infants with hearing loss and their hearing mothers. Spencer, P.E. April 1993, 311–321
Comparison of two methods for promoting productive vocabulary in late talkers. Ellis Weismer, S., Murray-Branch, J., & Miller, J.F. October 1993, 1037–1050
Familiarity and transparency in idiom explanation: A developmental study of children and adolescents. Nippold, M.A., & Rudzinski, M. Aug. 1993, 728–737
First-language acquisition after childhood differs from second-language acquisition: The case of American Sign Language. Mayberry, R.I. December 1993, 1258–1270
The influence of prosodic and gestural cues on novel word acquisition by children with specific language impairment. Ellis Weismer, S., & Hesketh, L.J. October 1993, 1013–1025
Morphological deficits of children with SLI: Evaluation of number marking and agreement. Rice, M.L., & Oetting, J.B. December 1993, 1249–1257
Narrative discourse in children with language disorders and children with normal language: A critical review of the literature. Liles, B.Z. October 1993, 868–882
Narrative skills in 4-year-olds with normal, impaired, and late-developing language. Paul, R., & Smith, R.L. June 1993, 592–598
Phonologic error distributions in the Iowa-Nebraska Articulation Norms Project: Word-initial consonant clusters. Smit, A.B. October 1993, 931–947
Phonological error distributions in the Iowa-Nebraska articulation norms project: Consonant singletons. Smit, A.B. June 1993, 533–547
A reaction time study of grammaticality judgments in children. Wulfeck, B.B. December 1993, 1208–1215
Referential cohesion in the narratives of Spanish-speaking children: A developmental study. Gutierrez-Clellen, V.F., & Heinrichs-Ramos, L. June 1993, 559–567
Vocal communication in the first 18 months of life. Stark, R.E., Bernstein, L.E., & Demorest, M.E. June 1993, 548–558

**Language Use in Adults**
First-language acquisition after childhood differs from second-language acquisition:

The case of American Sign Language. Mayberry, R.I. December 1993, 1258–1270

**Language Differences and Different Languages**

Referential cohesion in the narratives of Spanish-speaking children: A developmental study. Gutierrez-Clellen, V.F., & Heinrichs-Ramos, L. June 1993, 559–567

**Verbal Learning and Memory**

Auditory lexical decisions in children and adults: An examination of response factors. Edwards, J., & Lahey, M. October 1993, 996–1003

Children with specific language impairment: Linguistic impairment or short-term memory deficit?. van der Lely, H.K.J., & Howard, D. December 1993, 1193–1207

Constituent syllable effects in a nonsense-word repetition task. Dollaghan, C., Biber, M., & Campbell, T. October 1993, 1051–1054

The influence of prosodic and gestural cues on novel word acquisition by children with specific language impairment. Ellis Weismer, S., & Hesketh, L.J. October 1993, 1013–1025

LANGUAGE DISORDERS

**Aphasia and Other Adult Language Disorders**

Brain damage and prosody errors reconsidered: Reply to Heilman. Van Lancker, D., & Sidtis, J. December 1993, 1191–1192

Suppression and facilitation of pragmatic performance: Effects of emotional content on discourse following right and left brain damage. Bloom, R.L., Borod, J.C., Obler, L., & Gerstman, L. December 1993, 1227–1235

A system for quantifying the informativeness and efficiency of the connected speech of adults with aphasia. Nicholas, L.E., & Brookshire, R.H. April 1993, 338–350

**Language Disorders in Children**

Access behaviors of children with specific language impairment. Craig, H.K., & Washington, J.A. April 1993, 322–337

Children with specific language impairment: Linguistic impairment or short-term memory deficit?. van der Lely, H.K.J., & Howard, D. December 1993, 1193–1207

Clinical and research congruence in identifying children with specific language impairment. Aram, D.M., Morris, R., & Hall, N.E. June 1993, 580–591

Comparison of two methods for promoting productive vocabulary in late talkers. Ellis Weismer, S., Murray-Branch, J., & Miller, J.F. October 1993, 1037–1050

Conversations with children who are language impaired: Asking questions. Johnston, J.R., Miller, J.F., Curtiss, S., & Tallal, P. October 1993, 973–978

The effects of early bilateral otitis media with effusion on language ability: A prospective cohort study. Grievink, E.H., Peters, S.A.F., van Bon, W.H.J., & Schilder, A.G.M. October 1993, 1004–1012

Facilitating prelinguistic communication skills in young children with developmental delay. Warren, S.F., Yoder, P.J., Gazdag, G.E., Kim, K., & Jones, H.A. Feb. 1993, 83–97

Fine-grained auditory discrimination: Factor structures. Elliott, L.L., & Hammer, M.A. April 1993, 396–409

Grammatical morpheme acquisition in four-year-olds with normal, impaired, and late-developing language. Paul, R., & Alforde, S. December 1993, 1271–1275

The grammatical morphology of Hebrew-speaking children with specific language impairment: Some competing hypotheses. Dromi, E., Leonard, L., & Shleiman, M. Aug. 1993, 760–771

Haptic recognition of children with specific language impairment: Effects of response modality. Montgomery, J.W. Feb. 1993, 98–104

History of middle ear involvement and speech/language development in late talkers. Paul, R., Lynn, T.F., & Lohr-Flanders, M. October 1993, 1055–1062

Induction of a visual symbolic rule in children with specific language impairment. Stone, C.A., & Connell, P.J. June 1993, 599–608

The influence of prosodic and gestural cues on novel word acquisition by children with specific language impairment. Ellis Weismer, S., & Hesketh, L.J. October 1993, 1013–1025

Morphological deficits of children with SLI: Evaluation of number marking and agreement. Rice, M.L., & Oetting, J.B. December 1993, 1249–1257

Narrative discourse in children with language disorders and children with normal language: A critical review of the literature. Liles, B.Z. October 1993, 868–882

Narrative skills in 4-year-olds with normal, impaired, and late-developing language. Paul, R., & Smith, R.L. June 1993, 592–598

Perception of formant transition cues to place of articulation in children with language impairments. Sussman, J.E. December 1993, 1286–1299

The performance of children with language-learning disabilities on two types of cognitive tasks. Masterson, J.J. October 1993, 1026–1036

Plural acquisition in children with specific language impairment. Oetting, J.B., & Rice, M.L. December 1993, 1236–1248

Pragmatics and SLI: Within-group variations in discourse behavior. Craig, H.K., & Evans, J.L. Aug. 1993, 777–789

Relationship between language and fluency in children with developmental language disorders. Hall, N.E., Yamashita, T.S., & Aram, D.M. June 1993, 568–579

The relationship between speech-language impairments and reading disabilities. Catts, H.W. October 1993, 948–958

Two approaches to the facilitation of grammar in children with language impairment: An experimental evaluation. Fey, M.E., Cleave, P.L., Long, S.H., & Hughes, D.L. Feb. 1993, 141–157

Verb class distinctions and AAC language-encoding limitations. Sutton, A.E., & Gallagher, T.M. December 1993, 1216–1226

Verbal analogical reasoning in children with language-learning disabilities. Masterson, J.J., Evans, L.H., & Aloia, M. Feb. 1993, 76–82

**Learning Disabilities**

Auditory perception, phonological processing, and reading ability/disability. Watson, B.U., & Miller, T.K. Aug. 1993, 850–863

The performance of children with language-learning disabilities on two types of cognitive tasks. Masterson, J.J. October 1993, 1026–1036

The relationship between speech-language impairments and reading disabilities. Catts, H.W. October 1993, 948–958

Verbal analogical reasoning in children with language-learning disabilities. Masterson, J.J., Evans, L.H., & Aloia, M. Feb. 1993, 76–82

**Language Disorders in Mental Retardation**

Facilitating prelinguistic communication skills in young children with developmental delay. Warren, S.F., Yoder, P.J., Gazdag, G.E., Kim, K., & Jones, H.A. Feb. 1993, 83–97

Following the child's lead when teaching nouns to preschoolers with mental retardation. Yoder, P.J., Kaiser, A.P., Alpert, C., & Fischer, R. Feb. 1993, 158–167

Issues raised by facilitated communication for theorizing and research on autism. Duchan, J.F. December 1993, 1108–1119

ASSESSMENT AND INTERVENTION

**Screening**

The Fluharty Preschool Speech and Language Screening Test: A population-based validation study using sample-independent decision rules. Sturner, R.A., Heller, J.A., Funk, S.G., & Layton, T.L. Aug. 1993, 738–745

**Assessment**

Children with specific language impairment: Linguistic impairment or short-term memory deficit?. van der Lely, H.K.J., & Howard, D. December 1993, 1193–1207

Clinical and research congruence in identifying children with specific language impairment. Aram, D.M., Morris, R., & Hall, N.E. June 1993, 580–591

Constituent syllable effects in a nonsense-word repetition task. Dollaghan, C., Biber, M., & Campbell, T. October 1993, 1051–1054

Conversations with children who are language impaired: Asking questions. Johnston, J.R., Miller, J.F., Curtiss, S., & Tallal, P. October 1993, 973–978

Narrative skills in 4-year-olds with normal, impaired, and late-developing language. Paul, R., & Smith, R.L. June 1993, 592–598

The performance of children with language-learning disabilities on two types of cognitive tasks. Masterson, J.J. October 1993, 1026–1036

Phonologic error distributions in the Iowa-Nebraska Articulation Norms Project: Word-initial consonant clusters. Smit, A.B. October 1993, 931–947

Phonological error distributions in the Iowa-Nebraska articulation norms project: Consonant singletons. Smit, A.B. June 1993, 533–547

Pragmatics and SLI: Within-group variations in discourse behavior. Craig, H.K., & Evans, J.L. Aug. 1993, 777–789

Suppression and facilitation of pragmatic performance: Effects of emotional content on discourse following right and left brain damage. Bloom, R.L., Borod, J.C., Obler,

L., & Gerstman, L. December 1993, 1227–1235
A system for quantifying the informativeness and efficiency of the connected speech of adults with aphasia. Nicholas, L.E., & Brookshire, R.H. April 1993, 338–350

**Intervention**
Comparison of two methods for promoting productive vocabulary in late talkers. Ellis Weismer, S., Murray-Branch, J., & Miller, J.F. October 1993, 1037–1050
Facilitating prelinguistic communication skills in young children with developmental delay. Warren, S.F., Yoder, P.J., Gazdag, G.E., Kim, K., & Jones, H.A. Feb. 1993, 83–97
Following the child's lead when teaching nouns to preschoolers with mental retardation. Yoder, P.J., Kaiser, A.P., Alpert, C., & Fischer, R. Feb. 1993, 158–167
Issues raised by facilitated communication for theorizing and research on autism. Duchan, J.F. December 1993, 1108–1119
Suppression and facilitation of pragmatic performance: Effects of emotional content on discourse following right and left brain damage. Bloom, R.L., Borod, J.C., Obler, L., & Gerstman, L. December 1993, 1227–1235
Two approaches to the facilitation of grammar in children with language impairment: An experimental evaluation. Fey, M.E., Cleave, P.L., Long, S.H., & Hughes, D.L. Feb. 1993, 141–157

**Nonspeech Communications Systems**
Effects of initial element teaching in a storytelling context on Blissymbol acquisition and generalization. Schlosser, R.W., & Lloyd, L.L. October 1993, 979–995
Issues raised by facilitated communication for theorizing and research on autism. Duchan, J.F. December 1993, 1108–1119
Verb class distinctions and AAC language-encoding limitations. Sutton, A.E., & Gallagher, T.M. December 1993, 1216–1226

**Affective Prosody**
A response to Van Lancker and Sidtis (1992). Heilman, K.M. December 1993, 1191

**Research Analysis**
Narrative discourse in children with language disorders and children with normal language: A critical review of the literature. Liles, B.Z. October 1993, 868–882

**Research Design**
Language matches: Illuminating or confounding?. Plante, E., Swisher, L., Kiernan, B., & Restrepo, M.A. Aug. 1993, 772–776

**Second-language acquisition**
First-language acquisition after childhood differs from second-language acquisition: The case of American Sign Language. Mayberry, R.I. December 1993, 1258–1270

## SPEECH

### NATURE OF NORMAL SPEECH

**Development of Speech and Voice**
Acoustic evidence for the development of gestural coordination in the speech of 2-year-olds: A longitudinal study. Goodell, E.W., & Studdert-Kennedy, M. Aug. 1993, 707–727
The emergence of mature gestural patterns is not uniform: Evidence from an acoustic study. Nittrouer, S. October 1993, 959–973
Fine-grained auditory discrimination: Factor structures. Elliott, L.L., & Hammer, M.A. April 1993, 396–409
Phonologic error distributions in the Iowa-Nebraska Articulation Norms Project: Word-initial consonant clusters. Smit, A.B. October 1993, 931–947
Phonological error distributions in the Iowa-Nebraska articulation norms project: Consonant singletons. Smit, A.B. June 1993, 533–547
Preschooler's imitation of intonation contours. Loeb, D.F., & Allen, G.D. Feb. 1993, 4–13

**Anatomy and Physiology of the Adult Speech System**
Changes in auditory-vocal reaction times within and across experimental sessions: Preliminary observations. Sapir, S., Li, L., Ragin, A.B., & Dod, J.M. June 1993, 466–471
Characteristics of speaking rate in the dysarthria associated with amyotrophic lateral sclerosis. Turner, G.S., & Weismer, G. December 1993, 1134–1144
Effect of lung volume on voice onset time (VOT). Hoit, J.D., Solomon, N.P., & Hixon, T.J. June 1993, 516–520
Event-related brain potentials preceding speech and nonspeech oral movements of varying complexity. Wohlert, A.B. October 1993, 897–905
A maximum-force-dependent protocol for assessing labial force control. Amerman, J.D. June 1993, 460–465
Physiological differences between stutterers and nonstutterers in perceptually fluent speech: EMG amplitude and duration. Van Lieshout, P.H.H.M., Peters, H.F.M., Starkweather, C.W., & Hulstijn, W. Feb. 1993, 55–63
Respiratory and laryngeal function of women and men during vocal intensity variation. Stathopoulos, E.T., & Sapienza, C. Feb. 1993, 64–75
Speaking rate and speech movement velocity profiles. Adams, S.G., Weismer, G., & Kent, R.D. Feb. 1993, 41–54
Speech breathing in young adults: Effect of body type. Manifold, J., & Murdoch, B.E. Aug. 1993, 657–671
Symmetry of mandibular muscle activity as an index of coordinative strategy. Moore, C.A. December 1993, 1145–1157
Visuomotor tracking ability of young adult speakers. Moon, J.B., Zebrowski, P., Robin, R.A., & Folkins, J.W. Aug. 1993, 672–682

**Perception of Speech**
Auditory processing in children's speech perception: Results of selective adaptation and discrimination tasks. Sussman, J.E. April 1993, 380–395
Effects of age and hearing loss on serial recall of natural and synthetic speech. Humes, L.E., Nelson, K.J., Pisoni, D.B., & Lively, S.E. June 1993, 634–639
Effects of word predictability, child development, and aging on time-gated speech recognition performance. Craig, C.H., Kim, B.W., Pecyna Rhyner, P.M., & Bowen Chirillo, T.K. Aug. 1993, 832–841
Fine-grained auditory discrimination: Factor structures. Elliott, L.L., & Hammer, M.A. April 1993, 396–409
Frequency-importance and transfer functions for the Auditec of St. Louis recordings of the NU-6 word test. Studebaker, G.A., Sherbecoe, R.L., & Gilmore, C. Aug. 1993, 799–807
Hearing loss, speech, and hearing aids. Van Tasell, D.J. April 1993, 228–244
Perception of formant transition cues to place of articulation in children with language impairments. Sussman, J.E. December 1993, 1286–1299
Preschooler's imitation of intonation contours. Loeb, D.F., & Allen, G.D. Feb. 1993, 4–13
Segmental intelligibility and speech interference thresholds of high-quality synthetic speech in presence of noise. Koul, R.K., & Allen, G.D. Aug. 1993, 790–798
Vowel classification based on fundamental frequency and formant frequencies. Hillenbrand, J., & Gayvert, R.T. Aug. 1993, 694–700

### SPEECH AND VOICE DISORDERS

**Articulation and Resonance Disorders**
Characteristics of speaking rate in the dysarthria associated with amyotrophic lateral sclerosis. Turner, G.S., & Weismer, G. December 1993, 1134–1144
Coexistence of stuttering and disordered phonology in young children. Wolk, L., Edwards, M.L., & Conture, E.G. October 1993, 906–917
Four new speech and prosody-voice measures for genetics research and other studies in developmental phonological disorders. Shriberg, L.D. Feb. 1993, 105–140
History of middle ear involvement and speech/language development in late talkers. Paul, R., Lynn, T.F., & Lohr-Flanders, M. October 1993, 1055–1062
Maximum performance tests in children with developmental spastic dysarthria. Wit, J., Maassen, B., Gabreëls, F.J.M., & Thoonen, G. June 1993, 452–459
Relationships between acoustically determined knowledge of stop place and voicing contrasts and phonological treatment progress. Tyler, A.A., Figurski, G.R., & Langsdale, T. Aug. 1993, 746–759
Speech and swallow function after tonsil/base of tongue resection with primary closure. Logemann, J.A., Pauloski, B.R., Rademaker, A.W., McConnel, F.M.S., Heiser, M.A., Cardinale, S., Shedd, D., Stein, D., Beery, Q., Johnson, J., & Baker, T. October 1993, 918–926
Speech and swallowing function after anterior tongue and floor of mouth resection with distal flap reconstruction. Pauloski, B.R., Logemann, J.A., Rademaker, A.W., McConnel, F.M.S., Heiser, M.A., Cardinale, S., Shedd, D., Lewin, J., Baker, S.R., Graner, D., Cook, B., Milianti, F., Collins, S., & Baker, T. April 1993, 267–276
Vowel and diphthong production by young users of cochlear implants and the relationship between the phonetic level evaluation and spontaneous speech. Tye-

Murray, N., & Kirk, K.I. June 1993, 488–502

**Physiologically Based Speech Disorders**

Characteristics of speaking rate in the dysarthria associated with amyotrophic lateral sclerosis. Turner, G.S., & Weismer, G. December 1993, 1134–1144

Multiple orofacial indices in amyotrophic lateral sclerosis. DePaul, R., & Brooks, B.R. December 1993, 1158–1167

Speech and swallow function after tonsil/base of tongue resection with primary closure. Logemann, J.A., Pauloski, B.R., Rademaker, A.W., McConnel, F.M.S., Heiser, M.A., Cardinale, S., Shedd, D., Stein, D., Beery, Q., Johnson, J., & Baker, T. October 1993, 918–926

Speech breathing in Parkinson disease. Solomon, N.P., & Hixon, T.J. April 1993, 294–275

Syllabic timing in dysarthria. Ziegler, W., Hartmann, E., & Hoole, P. Aug. 1993, 683–693

Vowel and diphthong production by young users of cochlear implants and the relationship between the phonetic level evaluation and spontaneous speech. Tye-Murray, N., & Kirk, K.I. June 1993, 488–502

**Stuttering and Other Fluency Disturbances**

Coexistence of stuttering and disordered phonology in young children. Wolk, L., Edwards, M.L., & Conture, E.G. October 1993, 906–917

The covert repair hypothesis: Prearticulatory repair processes in normal and stuttered disfluencies. Postma, A., & Kolk, H. June 1993, 472–487

Differences between stutterers' and nonstutterers' short-term recall and recognition performance. Bosshardt, H.-G. April 1993, 286–293

The early months of stuttering: A developmental study. Yairi, E., Ambrose, N.G., & Niermann, R. June 1993, 521–528

F2 transitions during sound/syllable repetitions of children who stutter and predictions of stuttering chronicity. Yaruss, J.S., & Conture, E.G. October 1993, 883–896

Genetic aspects of early childhood stuttering. Ambrose, N., Yairi, E., & Cox, N. Aug. 1993, 701–706

Physiological differences between stutterers and nonstutterers in perceptually fluent speech: EMG amplitude and duration. Van Lieshout, P.H.H.M., Peters, H.F.M., Starkweather, C.W., & Hulstijn, W. Feb. 1993, 55–63

Relationship between language and fluency in children with developmental language disorders. Hall, N.E., Yamashita, T.S., & Aram, D.M. June 1993, 568–579

Speech production changes under fluency-evoking conditions in nonstutterers. Stager, S.V., & Ludlow, C.L. April 1993, 245–253

Time-interval measurement of stuttering: Systematic replication of Ingham, Cordes, and Gow (1993). Ingham, R.J., Cordes, A.K., & Finn, P. December 1993, 1168–1176

Time-interval measurement of stuttering: Modifying interjudge agreement. Ingham, R.J., Cordes, A.K., & Gow, M.L. June 1993, 503–515

**Voice and Other Laryngeal Disorders**

Aerodynamic characteristics of tracheostomy speaking valves. Fornataro-Clerici, L., & Zajac, D.J. June 1993, 529–532

A cepstrum-based technique for determining a harmonics-to-noise ratio in speech signals. de Krom, G. April 1993, 254–266

Comparing internal and external standards in voice quality judgments. Gerratt, B.R., Kreiman, J., Antonanzas-Barroso, N., & Berke, G.S. Feb. 1993, 14–20

Comparison of $F_0$ extraction methods for high-precision voice perturbation measurements. Titze, I.R., & Liang, H. December 1993, 1120–1133

The effect of microphone type and placement on voice perturbation measurements. Titze, I.R., & Winholtz, W.S. December 1993, 1177–1190

Perceptual evaluation of voice quality: Review, tutorial, and a framework for future research. Kreiman, J., Gerratt, B.R., Kempster, G.B., Erman, A., & Berke, G.S. Feb. 1993, 21–40

ASSESSMENT AND INTERVENTION

**Screening**

The Fluharty Preschool Speech and Language Screening Test: A population-based validation study using sample-independent decision rules. Sturner, R.A., Heller, J.A., Funk, S.G., & Layton, T.L. Aug. 1993, 738–745

**Assessment**

A cepstrum-based technique for determining a harmonics-to-noise ratio in speech signals. de Krom, G. April 1993, 254–266

Comparing internal and external standards in voice quality judgments. Gerratt, B.R., Kreiman, J., Antonanzas-Barroso, N., & Berke, G.S. Feb. 1993, 14–20

Four new speech and prosody-voice measures for genetics research and other studies in developmental phonological disorders. Shriberg, L.D. Feb. 1993, 105–140

Maximum performance tests in children with developmental spastic dysarthria. Wit, J., Maassen, B., Gabreëls, F.J.M., & Thoonen, G. June 1993, 452–459

Perceptual evaluation of voice quality: Review, tutorial, and a framework for future research. Kreiman, J., Gerratt, B.R., Kempster, G.B., Erman, A., & Berke, G.S. Feb. 1993, 21–40

Phonologic error distributions in the Iowa-Nebraska Articulation Norms Project: Word-initial consonant clusters. Smit, A.B. October 1993, 931–947

Phonological error distributions in the Iowa-Nebraska articulation norms project: Consonant singletons. Smit, A.B. June 1993, 533–547

Relationships between acoustically determined knowledge of stop place and voicing contrasts and phonological treatment progress. Tyler, A.A., Figurski, G.R., & Langsdale, T. Aug. 1993, 746–759

Speech and swallowing function after anterior tongue and floor of mouth resection with distal flap reconstruction. Pauloski, B.R., Logemann, J.A., Rademaker, A.W., McConnel, F.M.S., Heiser, M.A., Cardinale, S., Shedd, D., Lewin, J., Baker, S.R., Graner, D., Cook, B., Milianti, F., Collins, S., & Baker, T. April 1993, 267–276

Speech breathing in young adults: Effect of body type. Manifold, J., & Murdoch, B.E. Aug. 1993, 657–671

Time-interval measurement of stuttering: Systematic replication of Ingham, Cordes, and Gow (1993). Ingham, R.J., Cordes, A.K., & Finn, P. December 1993, 1168–1176

Vowel and diphthong production by young users of cochlear implants and the relationship between the phonetic level evaluation and spontaneous speech. Tye-Murray, N., & Kirk, K.I. June 1993, 488–502

**Acoustic Measures of Speech and Voice**

Brain damage and prosody errors reconsidered: Reply to Heilman. Van Lancker, D., & Sidtis, J. December 1993, 1191–1192

A cepstrum-based technique for determining a harmonics-to-noise ratio in speech signals. de Krom, G. April 1993, 254–266

Changes in auditory-vocal reaction times within and across experimental sessions: Preliminary observations. Sapir, S., Li, L., Ragin, A.B., & Dod, J.M. June 1993, 466–471

Characteristics of speaking rate in the dysarthria associated with amyotrophic lateral sclerosis. Turner, G.S., & Weismer, G. December 1993, 1134–1144

Comparison of $F_0$ extraction methods for high-precision voice perturbation measurements. Titze, I.R., & Liang, H. December 1993, 1120–1133

The effect of microphone type and placement on voice perturbation measurements. Titze, I.R., & Winholtz, W.S. December 1993, 1177–1190

The emergence of mature gestural patterns is not uniform: Evidence from an acoustic study. Nittrouer, S. October 1993, 959–973

Maximum performance tests in children with developmental spastic dysarthria. Wit, J., Maassen, B., Gabreëls, F.J.M., & Thoonen, G. June 1993, 452–459

Preschooler's imitation of intonation contours. Loeb, D.F., & Allen, G.D. Feb. 1993, 4–13

Relationships between acoustically determined knowledge of stop place and voicing contrasts and phonological treatment progress. Tyler, A.A., Figurski, G.R., & Langsdale, T. Aug. 1993, 746–759

**Intervention**

Relationships between acoustically determined knowledge of stop place and voicing contrasts and phonological treatment progress. Tyler, A.A., Figurski, G.R., & Langsdale, T. Aug. 1993, 746–759

**Instrumentation for Diagnosis, Treatment, and Research**

Aerodynamic characteristics of tracheostomy speaking valves. Fornataro-Clerici, L., & Zajac, D.J. June 1993, 529–532

Changes in auditory-vocal reaction times within and across experimental sessions: Preliminary observations. Sapir, S., Li, L., Ragin, A.B., & Dod, J.M. June 1993, 466–471

The effect of microphone type and placement on voice perturbation measurements. Titze, I.R., & Winholtz, W.S. December 1993, 1177–1190

Maximum performance tests in children with developmental spastic dysarthria. Wit, J., Maassen, B., Gabreëls, F.J.M., & Thoonen, G. June 1993, 452–459

Preschooler's imitation of intonation contours. Loeb, D.F., & Allen, G.D. Feb. 1993, 4–13

Role of visual feedback treatment for defective /s/ sounds in patients with cleft palate. Michi, K., Yamashita, Y., Imai, S., Suzuki, N., & Yoshida, H. April 1993, 277–285
Speech breathing in young adults: Effect of body type. Manifold, J., & Murdoch, B.E. Aug. 1993, 657–671

**Nonspeech Communication Systems**
Segmental intelligibility and speech interference thresholds of high-quality synthetic speech in presence of noise. Koul, R.K., & Allen, G.D. Aug. 1993, 790–798

**Dysphagia**
Speech and swallowing function after anterior tongue and floor of mouth resection with distal flap reconstruction. Pauloski, B.R., Logemann, J.A., Rademaker, A.W., McConnel, F.M.S., Heiser, M.A., Cardinale, S., Shedd, D., Lewin, J., Baker, S.R., Graner, D., Cook, B., Milianti, F., Collins, S., & Baker, T. April 1993, 267–276

**Swallowing**
Speech and swallow function after tonsil/base of tongue resection with primary closure. Logemann, J.A., Pauloski, B.R., Rademaker, A.W., McConnel, F.M.S., Heiser, M.A., Cardinale, S., Shedd, D., Stein, D., Beery, Q., Johnson, J., & Baker, T. October 1993, 918–926

## PROFESSIONAL AND GENERAL SCIENTIFIC ISSUES

PROFESSIONAL AFFAIRS

**Incidence and Prevalence of Communication Disorders**
Genetic aspects of early childhood stuttering. Ambrose, N., Yairi, E., & Cox, N. Aug. 1993, 701–706

**Research Issues and Methodology**
Brain damage and prosody errors reconsidered: Reply to Heilman. Van Lancker, D., & Sidtis, J. December 1993, 1191–1192
Clinical and research congruence in identifying children with specific language impairment. Aram, D.M., Morris, R., & Hall, N.E. June 1993, 580–591
Comparing internal and external standards in voice quality judgments. Gerratt, B.R., Kreiman, J., Antonanzas-Barroso, N., & Berke, G.S. Feb. 1993, 14–20
Issues raised by facilitated communication for theorizing and research on autism. Duchan, J.F. December 1993, 1108–1119
The need for replication. Muma, J.R. October 1993, 927–930
Perceptual evaluation of voice quality: Review, tutorial, and a framework for future research. Kreiman, J., Gerratt, B.R., Kempster, G.B., Erman, A., & Berke, G.S. Feb. 1993, 21–40
Supplementing tests of statistical significance: Variation accounted for. Young, M.A. Aug. 1993, 644–656

## TITLE INDEX

Access behaviors of children with specific language impairment. Craig, H.K., & Washington, J.A. April 1993, 322–337
Acoustic evidence for the development of gestural coordination in the speech of 2-year-olds: A longitudinal study. Goodell, E.W., & Studdert-Kennedy, M. Aug. 1993, 707–727
Aerodynamic characteristics of tracheostomy speaking valves. Fornataro-Clerici, L., & Zajac, D.J. June 1993, 529–532
Auditory detection of the human brainstem auditory evoked response. Kidd, G., Jr., Burkard, R.F., & Mason, C.R. April 1993, 442–447
Auditory lexical decisions in children and adults: An examination of response factors. Edwards, J., & Lahey, M. October 1993, 996–1003
Auditory perception, phonological processing, and reading ability/disability. Watson, B.U., & Miller, T.K. Aug. 1993, 850–863
Auditory processing in children's speech perception: Results of selective adaptation and discrimination tasks. Sussman, J.E. April 1993, 380–395
Auditory Stroop Effects in hearing-impaired children. Jerger, S., Stout, G., Kent, M., Albritton, E., Loiselle, L., Blondeau, R., & Jorgensen, S. October 1993, 1083–1096
Benefit from visual cues in auditory-visual speech recognition by middle-aged and elderly persons. Walden, B.E., Busacco, D.A., & Montgomery, A.A. April 1993, 431–436
Brain damage and prosody errors reconsidered: Reply to Heilman. Van Lancker, D., & Sidtis, J. December 1993, 1191–1192
A cepstrum-based technique for determining a harmonics-to-noise ratio in speech signals. de Krom, G. April 1993, 254–266
Changes in auditory-vocal reaction times within and across experimental sessions: Preliminary observations. Sapir, S., Li, L., Ragin, A.B., & Dod, J.M. June 1993, 466–471
Characteristics of speaking rate in the dysarthria associated with amyotrophic lateral sclerosis. Turner, G.S., & Weismer, G. December 1993, 1134–1144
Children with specific language impairment: Linguistic impairment or short-term memory deficit?. van der Lely, H.K.J., & Howard, D. December 1993, 1193–1207
Clinical and research congruence in identifying children with specific language impairment. Aram, D.M., Morris, R., & Hall, N.E. June 1993, 580–591
Coexistence of stuttering and disordered phonology in young children. Wolk, L., Edwards, M.L., & Conture, E.G. October 1993, 906–917
Communication behaviors of infants with hearing loss and their hearing mothers. Spencer, P.E. April 1993, 311–321
Comparing internal and external standards in voice quality judgments. Gerratt, B.R., Kreiman, J., Antonanzas-Barroso, N., & Berke, G.S. Feb. 1993, 14–20
Comparison of $F_0$ extraction methods for high-precision voice perturbation measurements. Titze, I.R., & Liang, H. December 1993, 1120–1133
Comparison of two methods for promoting productive vocabulary in late talkers. Ellis Weismer, S., Murray-Branch, J., & Miller, J.F. October 1993, 1037–1050
Constituent syllable effects in a nonsense-word repetition task. Dollaghan, C., Biber, M., & Campbell, T. October 1993, 1051–1054
Conversations with children who are language impaired: Asking questions. Johnston, J.R., Miller, J.F., Curtiss, S., & Tallal, P. October 1993, 973–978
The covert repair hypothesis: Prearticulatory repair processes in normal and stuttered disfluencies. Postma, A., & Kolk, H. June 1993, 472–487
Developmental patterns of duration discrimination. Elfenbein, J., Small, A.M., & Davis, J.M. Aug. 1993, 842–849
Differences between stutterers' and nonstutterers' short-term recall and recognition performance. Bosshardt, H.-G. April 1993, 286–293
The early months of stuttering: A developmental study. Yairi, E., Ambrose, N.G., & Niermann, R. June 1993, 521–528
Effect of lung volume on voice onset time (VOT). Hoit, J.D., Solomon, N.P., & Hixon, T.J. June 1993, 516–520
The effect of microphone type and placement on voice perturbation measurements. Titze, I.R., & Winholtz, W.S. December 1993, 1177–1190
The effect of otitis media with effusion on the masking-level difference and the auditory brainstem response. Hall, J.W., & Grose, J.H. Feb. 1993, 210–217
Effects of age and hearing loss on serial recall of natural and synthetic speech. Humes, L.E., Nelson, K.J., Pisoni, D.B., & Lively, S.E. June 1993, 634–639
The effects of early bilateral otitis media with effusion on language ability: A prospective cohort study. Grievink, E.H., Peters, S.A.F., van Bon, W.H.J., & Schilder, A.G.M. October 1993, 1004–1012
Effects of initial element teaching in a storytelling context on Blissymbol acquisition and generalization. Schlosser, R.W., & Lloyd, L.L. October 1993, 979–995
Effects of word predictability, child development, and aging on time-gated speech recognition performance. Craig, C.H., Kim, B.W., Pecyna Rhyner, P.M., & Bowen Chirillo, T.K. Aug. 1993, 832–841
The efficacy of using the IBM SpeechViewer Vowel Accuracy Module to treat young children with hearing impairment. Pratt, S.R., Heintzelman, A.T., & Ensrud Deming, S. October 1993, 1063–1074
The emergence of mature gestural patterns is not uniform: Evidence from an acoustic study. Nittrouer, S. October 1993, 959–973
Event-related brain potentials preceding speech and nonspeech oral movements of varying complexity. Wohlert, A.B. October 1993, 897–905
F2 transitions during sound/syllable repetitions of children who stutter and predictions of stuttering chronicity. Yaruss, J.S., & Conture, E.G. October 1993, 883–896
Facilitating prelinguistic communication skills in young children with developmental delay. Warren, S.F., Yoder, P.J., Gazdag, G.E., Kim, K., & Jones, H.A. Feb. 1993, 83–97
Familiarity and transparency in idiom explanation: A developmental study of children and adolescents. Nippold, M.A., & Rudzinski, M. Aug. 1993, 728–737

Fine-grained auditory discrimination: Factor structures. Elliott, L.L., & Hammer, M.A. April 1993, 396–409
First-language acquisition after childhood differs from second-language acquisition: The case of American Sign Language. Mayberry, R.I. December 1993, 1258–1270
The Fluharty Preschool Speech and Language Screening Test: A population-based validation study using sample-independent decision rules. Sturner, R.A., Heller, J.A., Funk, S.G., & Layton, T.L. Aug. 1993, 738–745
Following the child's lead when teaching nouns to preschoolers with mental retardation. Yoder, P.J., Kaiser, A.P., Alpert, C., & Fischer, R. Feb. 1993, 158–167
Four new speech and prosody-voice measures for genetics research and other studies in developmental phonological disorders. Shriberg, L.D. Feb. 1993, 105–140
Frequency-importance and transfer functions for the Auditec of St. Louis recordings of the NU-6 word test. Studebaker, G.A., Sherbecoe, R.L., & Gilmore, C. Aug. 1993, 799–807
Genetic aspects of early childhood stuttering. Ambrose, N., Yairi, E., & Cox, N. Aug. 1993, 701–706
Grammatical morpheme acquisition in four-year-olds with normal, impaired, and late-developing language. Paul, R., & Alforde, S. December 1993, 1271–1275
The grammatical morphology of Hebrew-speaking children with specific language impairment: Some competing hypotheses. Dromi, E., Leonard, L., & Shleiman, M. Aug. 1993, 760–771
Haptic recognition of children with specific language impairment: Effects of response modality. Montgomery, J.W. Feb. 1993, 98–104
Hearing aid evaluation: Predicting speech gain from insertion gain. Dillon, H. June 1993, 621–633
Hearing loss, speech, and hearing aids. Van Tasell, D.J. April 1993, 228–244
History of middle ear involvement and speech/language development in late talkers. Paul, R., Lynn, T.F., & Lohr-Flanders, M. October 1993, 1055–1062
Importance of patient and processor variables in determining outcomes with cochlear implants. Wilson, B.S., Lawson, D.T., Finley, C.C., & Wolford, R.D. April 1993, 373–379
Induction of a visual symbolic rule in children with specific language impairment. Stone, C.A., & Connell, P.J. June 1993, 599–608
Influence of frequency selectivity on comodulation masking release in normal-hearing listeners. Hall, J.W., Grose, J.H., & Moore, B.C.J. April 1993, 410–423
The influence of noise on the measured amplitudes of distortion-product otoacoustic emissions. Whitehead, M.L., Lonsbury-Martin, B.L., & Martin, G.K. October 1993, 1097–1102
The influence of prosodic and gestural cues on novel word acquisition by children with specific language impairment. Ellis Weismer, S., & Hesketh, L.J. October 1993, 1013–1025
Influences of age and hearing loss on the precedence effect in sound localization. Cranford, J.L., Andres, M.A., Piatz, K.K., & Reissig, K.L. April 1993, 437–441
Intelligibility of selected passages from the Speech Intelligibility Rating (SIR) Test. Beck, W.G., & Speaks, C. October 1993, 1075–1082
Issues raised by facilitated communication for theorizing and research on autism. Duchan, J.F. December 1993, 1108–1119
Language matches: Illuminating or confounding?. Plante, E., Swisher, L., Kiernan, B., & Restrepo, M.A. Aug. 1993, 772–776
Longitudinal study of hearing aid effectiveness. I: Objective measures. Bentler, R., Niebuhr, D., Getta, J., & Anderson, C. Aug. 1993, 808–819
Longitudinal study of hearing aid effectiveness. II: Subjective measures. Bentler, R., Niebuhr, D., Getta, J., & Anderson, C. Aug. 1993, 820–831
Long-term and short-term characteristics of speech: Implications for hearing aid selection in young children. Stelmachowicz, P.G., Mace, A.L., Kopun, J.G., & Carney, E. June 1993, 609–620
Loudness matching of signals spectrally shaped by a simulated hearing aid. Punch, J., & Rakerd, B. April 1993, 357–364
Maximum performance tests in children with developmental spastic dysarthria. Wit, J., Maassen, B., Gabreëls, F.J.M., & Thoonen, G. June 1993, 452–459
A maximum-force-dependent protocol for assessing labial force control. Amerman, J.D. June 1993, 460–465
Middle ear resonance and acoustic immittance measures in children. Hanks, W.D., & Rose, K.J. Feb. 1993, 218–222
Monaural envelope correlation perception in listeners with normal hearing and cochlear impairment. Hall, J.W., & Grose, J.H. December 1993, 1306–1314
Morphological deficits of children with SLI: Evaluation of number marking and agreement. Rice, M.L., & Oetting, J.B. December 1993, 1249–1257
Multiple frequency tympanometry: Effects of ear canal volume compensation on static acoustic admittance and estimates of middle ear resonance. Shanks, J.E., Wilson, R.H., & Cambron, N.K. Feb. 1993, 178–185
Multiple orofacial indices in amyotrophic lateral sclerosis. DePaul, R., & Brooks, B.R. December 1993, 1158–1167
Narrative discourse in children with language disorders and children with normal language: A critical review of the literature. Liles, B.Z. October 1993, 868–882
Narrative skills in 4-year-olds with normal, impaired, and late-developing language. Paul, R., & Smith, R.L. June 1993, 592–598
The need for replication. Muma, J.R. October 1993, 927–930
Perception of formant transition cues to place of articulation in children with language impairments. Sussman, J.E. December 1993, 1286–1299
Perceptual evaluation of voice quality: Review, tutorial, and a framework for future research. Kreiman, J., Gerratt, B.R., Kempster, G.B., Erman, A., & Berke, G.S. Feb. 1993, 21–40
The performance of children with language-learning disabilities on two types of cognitive tasks. Masterson, J.J. October 1993, 1026–1036
Phonologic error distributions in the Iowa-Nebraska Articulation Norms Project: Word-initial consonant clusters. Smit, A.B. October 1993, 931–947
Phonological error distributions in the Iowa-Nebraska articulation norms project: Consonant singletons. Smit, A.B. June 1993, 533–547
Physiological differences between stutterers and nonstutterers in perceptually fluent speech: EMG amplitude and duration. Van Lieshout, P.H.H.M., Peters, H.F.M., Starkweather, C.W., & Hulstijn, W. Feb. 1993, 55–63
Plural acquisition in children with specific language impairment. Oetting, J.B., & Rice, M.L. December 1993, 1236–1248
Pragmatics and SLI: Within-group variations in discourse behavior. Craig, H.K., & Evans, J.L. Aug. 1993, 777–789
Preschooler's imitation of intonation contours. Loeb, D.F., & Allen, G.D. Feb. 1993, 4–13
A reaction time study of grammaticality judgments in children. Wulfeck, B.B. December 1993, 1208–1215
Real ear to 6-cm$^3$ coupler differences in young children. Lewis, D.E., & Stelmachowicz, P.G. Feb. 1993, 204–209
Referential cohesion in the narratives of Spanish-speaking children: A developmental study. Gutierrez-Clellen, V.F., & Heinrichs-Ramos, L. June 1993, 559–567
Relationship between language and fluency in children with developmental language disorders. Hall, N.E., Yamashita, T.S., & Aram, D.M. June 1993, 568–579
The relationship between speech-language impairments and reading disabilities. Catts, H.W. October 1993, 948–958
Relationships between acoustically determined knowledge of stop place and voicing contrasts and phonological treatment progress. Tyler, A.A., Figurski, G.R., & Langsdale, T. Aug. 1993, 746–759
Relative satisfaction for frequency responses selected with a Simplex procedure in different listening conditions. Kuk, F.K., & Pape, N.M.C. Feb. 1993, 168–177
Respiratory and laryngeal function of women and men during vocal intensity variation. Stathopoulos, E.T., & Sapienza, C. Feb. 1993, 64–75
A response to Van Lancker and Sidtis (1992). Heilman, K.M. December 1993, 1191
Role of visual feedback treatment for defective /s/ sounds in patients with cleft palate. Michi, K., Yamashita, Y., Imai, S., Suzuki, N., & Yoshida, H. April 1993, 277–285
Segmental intelligibility and speech interference thresholds of high-quality synthetic speech in presence of noise. Koul, R.K., & Allen, G.D. Aug. 1993, 790–798
Speaking rate and speech movement velocity profiles. Adams, S.G., Weismer, G., & Kent, R.D. Feb. 1993, 41–54
Speech and swallow function after tonsil/base of tongue resection with primary closure. Logemann, J.A., Pauloski, B.R., Rademaker, A.W., McConnel, F.M.S., Heiser, M.A., Cardinale, S., Shedd, D.,

Stein, D., Beery, Q., Johnson, J., & Baker, T. October 1993, 918–926
Speech and swallowing function after anterior tongue and floor of mouth resection with distal flap reconstruction. Pauloski, B.R., Logemann, J.A., Rademaker, A.W., McConnel, F.M.S., Heiser, M.A., Cardinale, S., Shedd, D., Lewin, J., Baker, S.R., Graner, D., Cook, B., Milianti, F., Collins, S., & Baker, T. April 1993, 267–276
Speech breathing in Parkinson disease. Solomon, N.P., & Hixon, T.J. April 1993, 294–275
Speech breathing in young adults: Effect of body type. Manifold, J., & Murdoch, B.E. Aug. 1993, 657–671
Speech intelligibility of children with cochlear implants, tactile aids, or hearing aids. Osberger, M.J., Maso, M., & Sam, L.K. Feb. 1993, 186–203
Speech production changes under fluency-evoking conditions in nonstutterers. Stager, S.V., & Ludlow, C.L. April 1993, 245–253
Supplementing tests of statistical significance: Variation accounted for. Young, M.A. Aug. 1993, 644–656
Suppression and facilitation of pragmatic performance: Effects of emotional content on discourse following right and left brain damage. Bloom, R.L., Borod, J.C., Obler, L., & Gerstman, L. December 1993, 1227–1235
Syllabic timing in dysarthria. Ziegler, W., Hartmann, E., & Hoole, P. Aug. 1993, 683–693
Symmetry of mandibular muscle activity as an index of coordinative strategy. Moore, C.A. December 1993, 1145–1157
Synthesizing tinnitus from sine waves. Penner, M.J. December 1993, 1300–1305
A system for quantifying the informativeness and efficiency of the connected speech of adults with aphasia. Nicholas, L.E., & Brookshire, R.H. April 1993, 338–350
Temporal analysis in children. Grose, J.H., Hall, J.W., & Gibbs, C. April 1993, 351–356
Temporal factors and speech recognition performance in young and elderly listeners. Gordon-Salant, S., & Fitzgibbons, P.J. December 1993, 1276–1285
Temporary threshold shift caused by hearing aid use. Macrae, J.H. April 1993, 365–372
Time-interval measurement of stuttering: Modifying interjudge agreement. Ingham, R.J., Cordes, A.K., & Gow, M.L. June 1993, 503–515
Time-interval measurement of stuttering: Systematic replication of Ingham, Cordes, and Gow (1993). Ingham, R.J., Cordes, A.K., & Finn, P. December 1993, 1168–1176
Tracking of "moving" fused auditory images by children. Cranford, J.L., Morgan, M., Scudder, R., & Moore, C. April 1993, 424–430
Two approaches to the facilitation of grammar in children with language impairment: An experimental evaluation. Fey, M.E., Cleave, P.L., Long, S.H., & Hughes, D.L. Feb. 1993, 141–157
Verb class distinctions and AAC language-encoding limitations. Sutton, A.E., & Gallagher, T.M. December 1993, 1216–1226
Verbal analogical reasoning in children with language-learning disabilities. Masterson, J.J., Evans, L.H., & Aloia, M. Feb. 1993, 76–82
Visuomotor tracking ability of young adult speakers. Moon, J.B., Zebrowski, P., Robin, R.A., & Folkins, J.W. Aug. 1993, 672–682
Vocal communication in the first 18 months of life. Stark, R.E., Bernstein, L.E., & Demorest, M.E. June 1993, 548–558
Vowel and diphthong production by young users of cochlear implants and the relationship between the phonetic level evaluation and spontaneous speech. Tye-Murray, N., & Kirk, K.I. June 1993, 488–502
Vowel classification based on fundamental frequency and formant frequencies. Hillenbrand, J., & Gayvert, R.T. Aug. 1993, 694–700
